## TO WHOM IT MAY CONCERN

### STATEMENT ON RUBBERWOOD PRODUCTS

This is to confirm that the Rubberwood products of **Night & Day Furniture LLC.** as listed below are processed / manufactured from Rubberwood logs harvested from rubber plantations which are managed through systematic planting and replanting programmes (usually on a 25-year rotation). The trees are felled when their life-span for latex production is no longer economic and replanting is necessary. In this respect, Rubberwood products are environmentally friendly.

**CHEW LYE TENG**  
Chief Executive Officer
