relaxation  
made beautiful

## Inspired by Norwegian landscape since 1941

For more than 75 years Hjellegjerde has delivered furniture that combines great design, quality materials, with extraordinary comfort

The two brothers Otto and Mindor Hjellegjerde started the whole thing in the Fjordside district of Sykkylven- and this is where our head office is still found.

In 1946 the third brother, Ingvald, joined the business. Thanks to their burning commitment and great skill, the brothers managed to build a business which has become one of Norway's largest furniture groups. We have gone from being a small family business located in modest cellar premises, to what we are today, a company with market shares in five continents.

Through all these years we have produced comfortable quality furniture based on good workmanship and Norwegian design. We feel proud that the furniture from Hjellegjerde® is created with as much commitment and skill as in 1941.

Is it the landscape of contrasts around us, where the ceaseless movement of the ocean meets the sturdy solidity of the mountains?

Or is it the light in Norway – constantly changing– sometimes light, sometimes dark, one unable to exist without the other? Is that what makes us different from other furniture makers around the world?

Yes and no.

The natural world around us is robust – what we make is solid.

The natural world around us is generous – our furniture is designed for generous comfort. But the most important key to our philosophy is to find the meeting point of tradition and innovation, the point at which yesterday's knowledge meets today's technology. This makes us solid and trustworthy in everything from product quality to delivery. We are always moving towards our goal, just like the ocean, and we will always have our roots in the past, just like the mountains.

## 10 year warranty

Our material and production control provides you with a 10 year warranty on all steel components, 5 years on foam, plastic and wood constructions, and 3 years on Relaxer and Power Relaxer components.
